

IMPORTANT DATES

- October 2:** Spring 2024 schedule of classes available on the web
- October 2:** Student registration appointment times available on the web
- October 4:** Last day of classes for first half term
- October 5-6:** Reading days for first half term
- October 9-10:** Final exams for first half term
- October 13:** Unsatisfactory mid-term grades due on the web by noon for full term
- October 13:** Final grades due by noon for first half term
- October 16:** First day of classes for second half term
- October 17:** Last day to drop with no grade for second half term
- October 17:** Unsatisfactory mid-term grade notices emailed to students for full term
- October 19:** Last day to change grade type (P/NC or Audit) for full term
- October 19:** Last day to change or opt-out of grade replacement for full term
- October 19:** Last day to withdraw from a course(s) for full term; grade subject to withdrawal policy
- October 20:** Grade replacement auto selection process run for second half term
- October 23-24:** Student recess - no classes
- October 24:** Optional reschedule date for possible interruptions
- October 30:** Registration for spring 2024 begins

REVERSAL AND REDIRECT

In the forum last month, we discussed the use of XNCR NCR as a means to identify non-transferable courses in the Transfer Credit Advisor, Academic Transcript, and Degree Works. This worked well in the past for military training credit, but quickly became an issue when additional courses were introduced. The transcript became littered with non-transferable courses, as some students take significant technical training prior to transferring. Additionally, while valuable to know, the degree audit quickly became much longer for the same reasons. As of Monday (10/2), we are no longer equating this way. We are still adding non-transferable courses to our database, but marking them without an equivalency. We want this to be visible in the transfer credit advisor, as it should be transparent to students/advisors that we have reviewed the course, but deemed it non-transferable. The TCA editing is just beginning. We appreciate your patience as we continue to build and fly the plane at the same time. This will be discussed further at the next AAIT meeting.

READMISSION UPDATES

Enrollment Management is well underway in a review and revision of Charlotte's readmission application processes. This comprehensive review will include new outreach strategies and communication sequences to students who have stopped out of their degree programs, a newly revised readmission [Website & FAQs page](#), further Slate integration, and a streamlined application decisioning process. Key objectives of this project include improvements to the ease of the readmission application, time to decisioning, and yield of readmission applications.

Simultaneously, the UNCSCO has undertaken a complementary system-wide stop out outreach as a part of Project Kitty Hawk. "In 2021, the state budget passed by the General Assembly and signed by the Governor appropriated \$97 million for the launch of Project Kitty Hawk (PKH), a nonprofit ed-tech startup that will partner with UNC System universities to serve adult learners" ([UNCSCO - PKH](#)). In 2022, PKH identified ReUp Education as PKH's initial student acquisition partner to drive enrollment. In 2023, PKH has begun early market returns through its outreach to prospective stop out students from UNC System campuses. The goal of ReUp's efforts on behalf of PKH is to connect adult learners, who have some college credit from a UNC System school, but who have not yet completed their college degree to their previous home institution, another UNC System campus that is now a better fit for their life circumstances (location, field of study, etc.), or to a UNC System affiliated online program (eventually to be supported by the PKH platform).

In mid Sept. 2023, ReUp began outreach to some 15K Charlotte stop outs who had a break in attendance of 1-10 years, had not yet gone on to complete their college degree at another institution, and who are potentially eligible for return to Charlotte. ReUp will guide stop outs who are interested in applying for readmission to Charlotte's readmission application process. Stop outs who have questions before they apply for readmission will be directed to partner offices across campus.

The Office of the Registrar will begin working with academic departments across campus to further incorporate the potential workflow enhancements of Slate for the readmission decisioning process. These enhancements should streamline the decisioning process for both departments and applicants alike, provide centralized access to necessary student data and documentation, and enhanced communication capabilities. If you are interested in being an early adopter of these enhancements, please contact readmission@charlotte.edu.

JENGA!

The Office of the Registrar is an extremely competitive group, yet we all get along great. Back in late June, we challenged the Office of Research Services to a Jenga showdown. The Office of the Registrar has been working in games around work and meeting schedules. We're almost there! As you can see, we are pretty serious. When we have our Registrar champions and ORS is ready, we'll share the date/time in case you want to watch.
